PROJECTS

Liquor store- E-commerce Web Application Using Python Django (Dec 2023).

The Liquor Store is a comprehensive e-commerce platform designed to enhance the shopping experience for users. This application allows customers to easily manage their cart and purchase a wide selection of products. Key features include an integrated chat box for direct communication with admins, enabling prompt support and inquiries. Users can also share their experiences and insights by posting blogs about the store. Additional functionalities such as secure payment processing and party booking ensure a seamless and enjoyable experience for all customers. Whether shopping for personal use or planning an event, the Liquor Store caters to all needs in one convenient location.
